Detailed Action

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species: I. Figures 1-12E

II. Figure 13

III. Figure 14

IV. Figure 15

V. Figure 16

VI. Figures 17A-17E

Species are independent or distinct because they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations

Art Unit: 3754

of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

2. After careful consideration of the after final that was submitted on July 19, 2007, the Office has requested a restriction requirement, which is in detail above. The reason for the restriction requirement is due to the claims being too broad to conclude which embodiment reasonable applies to the claims.
